

Elementary Homework Policy Agreement
2022-2023

Homework at MSK is an extension of what your child is learning or has learned in class. Homework helps to reinforce concepts, builds a child's sense of responsibility, as well as confidence in completing a task each night. Depending on the grade level and their work ethics within the classroom, will determine the amount of homework your child may have each night. A few general guidelines to help with homework at home are:

- 1) Ensure that your child is working in a quiet, clean, clutter-free area
- 2) Ensure that your child has all necessary material (pencil, eraser, sharpener etc.) before sitting down to begin his/her homework
- 3) Encourage, support, and give positive feedback during homework periods

Homework time will be dependent on the workload; not including studying for tests, which will need to be completed at home. **Homework is expected to be completed promptly and to the best of your child's ability each night.** This is to ensure that your child does not fall behind and miss subsequent lessons.

Elementary Homework Policy Agreement
2022-2023

Please sign and return this portion to school.

I have read, understood, and will adhere to the homework policy. I have also discussed the policy expectations with my child.
